

Warrington YOUTH FOR CHRIST

The mission of seeing young people's lives changed by Jesus continues on social media! Read on to find out more...

Ste Murphy **Director**

"It's in unprecedented times like these that we have to pray for direction and inspiration about how we can be of service to the young people at this time. We are all adapting to life in quarantine - home schooling, working from newly established home offices, and having many of our basic freedoms put on hold.

In addition, we are spending more time with our families, consuming less, and I guess, being reminded about the things that matter the most. However for some young people home is not always the happiest place to be (for a variety of reasons). This is why our staff workers have decided to support young people such as these through our online mentoring programme. We have been responding to young people with concerns such as how the cancellation of their GCSE exams may impede their place in college, concerns about vulnerable family members due to the virus circulating and other worries in relation to self perception and isolation. In addition to this our staff team have been posting out daily challenges through social media and sharing testimonies as well as delivering Debate Clubs and Fresh groups through online conference calls, implementing the best online safeguarding practice in all their interactions. If you know of a young person who could do with a chat, some guidance or that simply need to 'off load' then please do inform them of this service through our Instagram page below.

Social Media Evangelism

Youth workers are online every weekday from 10am-4pm offering online mentoring and support to young people through social media. We are also posting daily videos, devotionals, games, and challenges to continue to engage and connect with young people, and ultimately share Jesus with them in this space.
