

Warrington YOUTH FOR CHRIST

Read on for an incredible story about how a young lad has been experiencing God through social media during lockdown...

Hannah
Bolger

Culcheth

“It has been such an honour to continue reaching young people on social media during what could’ve been some of the toughest months they have ever experienced. Video after video, post after post, most of the time you don’t see what’s on the receiving end of digital evangelism - is this making a difference?”

“Well, a few weeks ago I sat with a young lad who openly spoke to me about the fear he had been feeling with the current circumstances. But he told me he had been following our Instagram account throughout lockdown, and that our recent series “The Way” had

caused him to think about things on a deeper level. He had so many exciting and big questions about creation, science, and what it really means to have faith in God.

“I sat completely humbled and in awe that God was taking this young boy on a journey of faith - all from some posts on social media. For the rest of the session I was able to support him, answer his questions, and encourage the work of the Holy Spirit. In these moments I am reminded that it is God who makes a difference - that I am but a vessel, and He will take my little and use it for His glory.”

PRAYER POINTS

1. Please pray for this young lad and for all the young people who are experiencing God through social media.
2. Pray for the Debate Club that has recently started back at Culcheth High School.
3. Please also pray for Fresh in Culcheth as we start the new “The Way” series together

As we approach the end of the year, each youth worker has developed a video update all about our work throughout 2020, and how you can pray for the ministry in the future.

We would really appreciate it if you could play an update video in your church service. Just search “Warrington Youth for Christ” on YouTube and you will find videos on our channel specific to your area of Warrington.
