

Warrington YOUTH FOR CHRIST

As we reflect on 2020 and all that God has done, our director Steve shares some of his thoughts...

Steve
Murphy **Director**

"As we enter into 2021 and look back on 2020, we may feel like we were in the centre of a storm and indeed we are. In our context, we have certainly experienced the "One who stays closer than a brother" - like the story of Jesus being in the boat with His disciples at the height of the storm, where we awakes to calm the storm and ease His friends fears. He is the One who has kept us and sustained us throughout the past year and we are immensely thankful to Him.

"I'm in no doubt that this coming year will be one that sees our Youth for Christ team supporting many young people in their own personal storms as they reach out pastorally through our mentoring programme, allowing the love and care of God to work through them into the hearts and lives of the young people they passionately minister to, bringing hope and reassurance.

"We have tremendous hope going forward into 2021 as the Lord leads us, that many new opportunities will be released as we trust Him and allow Him to lead us! Additionally, I'd like to take this opportunity to thank you, for all your prayer and support over the past year - long may it continue into 2021 as we work together to see young people's lives changed by Jesus."

PRAYER POINTS

1. Join us in thanking God for all He has done in 2020, and for all the young people who have been reached both in person and online.
2. Please pray for the team as they prepare to return to school - for vision and guidance from the Lord in this ministry, particularly in mentoring.

As we start a new year, each youth worker has developed a video update all about our work throughout 2020, and how you can pray for the ministry in the future.

We would really appreciate it if you could play an update video in your church service. Just search "Warrington Youth for Christ" on YouTube and you will find videos on our channel specific to your area of Warrington.
